Tracker body + removable strap + charger

Download the app after completing registration, press the search button and link tracker with a smartphone.

Automatic start of charging

If you touch the button and the bracelet screen does not glow, first charge the device, and then return it to your hand. Connect the charger to the bracelet in the direction shown, connect it to a source of electrical current. A charging status indicator appears on the screen, the tracker automatically turns on. While charging, watch the charging port to avoid contamination of contacts, water ingress, or other hazards.

Download and install the application on your phone.

Scan the QR code for download and install the Hey + program, or find the program in the Playmarket.

Access to Mi Home

«Works with MiJia» means that the product can support the Mi Home application or Xiaoai home devices. Please note that the bracelet was connected to the Mi family only for checking the software level, Xiaomi and MiJia do not do this by default.

Scan the QR code and install the Mi Home app.
