Amazfit Band

Equipment
1. Bracelet
2. USB cable
3. Instruction and guarantee

Overview
Amazfit Band contains the main unit and removable bracelet. A touch button is located on the front of the main unit.

A: Main unit;
C: Sensor button;
B: Removable bracelet.

Touch the sensor button. If the bracelet display does not light up or battery level is low, please charge the device. To recharge the device, you must connect the USB cable to the suitable connector, which is located on the back of the bracelet (see image below). Connect the other end of the USB cable to a port with a nominal output voltage of 5V, the output current of the power adapter of the phone or computer connector should be 500mA or more.
Installing the APP
To install the application "Mi Fit", scan the QR-code or find and download it in the APP Store.

Pairing the Amazfit Band with other devices
After the successful registration in the "Mi Fit" APP, select the function "add new devices", following the instructions in the manual, find and pair the device with the bracelet.

Using the device
To start working, you need to touch the sensor button of the bracelet, then the display lights up. Swipe up / down to view all Amazfit Band functions. To select a specific function, click on the icon with its image. Move left / right to change the interface.
1. Turn on the display;
2. Move up / down;
3. Function selection;
4. Move to the right / left.
